Software developer

I'm Fenil Sonani, I Built more than 35 real-life projects in real life. I am an expert in languages like HTML, CSS, JS, TS
And FrameWork Such As Reactjs, Nextjs, Tailwindcss, Bootstrap,Nodejs And More...
And Databases Like Mysql,Mongodb...

SKILL

|			
Html	85%	Tailwindcss	95%
Nextjs(React js)	70%	Bootstrap	80%
Nodejs+Expressjs	70%	Mysql	75%
Mongodb	65%	Python	65%
Css	80%	Javascript	75%
Scss	60%	Typescript	75%
EDUCATION

Currently pursuing a Bachelor's degree in Information Technology (BSc IT) at BMIIT University

- Study focuses on the development and management of computer systems, including programming, databases, networks, and web development.
- Additionally, coursework includes subjects such as software engineering, data structures and algorithms, and computer organization and architecture.
- Developing a strong foundation in technical skills, as well as gaining experience in project management, teamwork, and problem-solving

PROJECTS

- As a fresher with a strong passion for technology, I have actively built and developed over 130 projects in various areas of web development.
- My projects range from simple static websites to dynamic and complex web applications, utilizing technologies such as From Basic HTML, CSS, and Js To All listed above technology. My extensive project experience has allowed me to develop a strong understanding of the software development process, including planning, coding, testing, and deployment.
- I am confident in my ability to apply my skills and knowledge to contribute to the success of a company
